QUEEN VICTORIA.

NEAR DEATH

Queen Victoria's Critical Illness Known to Her Distressed Subjects Throughout Britain.

THE FACT NOW ADMITTED

Family at the Bedside and Relatives Crowding Near Roundly, Say Latest Reports.

BULLETIN AT OSBORNE PLACE TO-DAY

London, Jan. 19.—It can no longer be denied, as was shown yesterday, that Queen Victoria is ill. Her condition, lately quite serious, has become precarious. All the family has been summoned to her bedside. Emperor William is now hurrying to join them in attendance upon the very ill ruler. A noon bulletin, posted at the Osborne Place, said the queen was practically prostrated physically and her condition was causing great anxiety. The excitement here and throughout England is intense, for the queen's age and her evident critical illness leaves but one conclusion, and that is that Great Britain's beloved queen is now nearing death and will soon have passed from life.

COUNTY COURT.

A. N. Hecht filed for record papers conferring on himself power of attorney for Rosa Hecht to release a lien. Property on the south side of Burnett street, between Eleventh and Twelfth, was sold by W. A. Gardner to John W. Moore, for \$500. Gehlischlager and Potter deeded land in the county, adjoining the Henry Simmons' tract, to G. D. Heit, for \$100. M. W. Clark purchased of J. Henry Wallace, for \$600, property on the west side of Seventh, between Harris and Boyd streets. Fifty-five acres adjoining the north-east corner of the Hollingsworth tract, in the county, was sold to John T. Shertown, by Thomas F. Anderson, for \$300.

CIRCUIT COURT.

The Dering Harvesting company against Ferguson-Palmer company case is still on trial in the circuit court and will last several days. Mr. M. V. Cherry was today excused from the jury and C. M. Rouse substituted.

THREE FIRE ALARMS.

The fire department was called out twice this morning by false alarms. The first was about 6 o'clock. A telephone message stated that there was a fire on Mallon street, but after the department went

RAILROAD NEWS.

President M. H. Smith, Traffic Manager Graham and General Freight Agent Compton, of the L. and N., have been in Cincinnati attending the meeting of the Southeastern Mississippi Valley Freight Association, to fix freight rates for the south. Vice President Harshaw, of the Illinois Central, Traffic Manager Culp, of the Southern railway, and George O. Smith, of the Air Line, were also in attendance.

The Illinois Central has cut the time between Chicago and New Orleans forty-five minutes and is now making the fastest time on record between these points.

Conductor Fred Lee, of the Memphis division of the Illinois Central, was badly hurt at Clinton, Ky., yesterday. He was on top of the engine, when his train broke in two, and the shock when the sections came together threw him off. He was bruised and cut and internally injured, but will doubtless recover. He was taken to his home in Martin, Tenn.

A car load of the finest cattle seen here in some time went through on the Illinois Central from Obion, Tenn., to Louisville today. They averaged 1,200 pounds each.

The improved train service between Chicago and Florida over the L. and N., Illinois Central and Southern railways is attracting the cream of tourist traffic southward instead of to California. All of the trains are well patronized.

Nervousness.

A wearing out of the nerves; a breaking down of the nerve strength; an unrest; a weakness or exhaustion of the forces or energy that belong to the nervous system. The weak, the care worn, the melancholy, those with no appetite for food, or who have frequent headaches or nervous chills; the low-spirited and the depressed are on the verge of nervous prostration. Men and women who are easily excited, impatient, fidgety and unable to rest or sleep at night, should replenish the stores of nervous energy with the greatest of restoratives, DR. MILES' NERVINE.

"I had suffered for two years from nervous cramps in my legs and arms, nervous chills, depression of spirits, and general debility. I was so nervous and fidgety that I could be scared at a shadow, and so restless that I could not sleep day or night. Finally my doctor told me I could try Dr. Miles' Nervine, and if that did not help me I would probably lose my mind. I commenced with it at once and after I had taken five bottles I was cured." Mrs. MARTHA J. SUEFFER, Omce, O. T.

Dr. Miles' Nervine

SATURDAY, JAN. 10, 1903.

The politician has for the time
taken a back seat. It is the office
seeker who now has the floor or is
reaching for the hand of the man with
the ballot in prospect.

As evidence that salt is a good pre-
server look at Lot's wife. She prom-
ised to live on to the end of time as an
example to the women who looked
back, though the salted down she re-
ceived never broke woman of this par-
ticular habit.

The representatives in congress
from Mississippi valley will serve their
people by persistent efforts to secure a
deeper water way for them. This
needed work will not only enlarge the
water traffic but at the same time will
lessen the danger from overflows. The
dealings between are too easily attained
to be overlooked or otherwise neg-
lected.

The Nicaraguan bill is to be held
up until the ship subsidy bill is passed.
So have decided the majority,
who feel the subsidy bill is being sacri-
ficed to the canal bill. The decision
will not set well in some
parts of the nation, but the two bills
have antagonized each other and the
stronger must survive or both go
down together. There are decided
tricks in politics as well as in trade.

The new year in a business way
has hardly yet begun to be felt, but that
it will be felt needs hardly be as-
serted. The country's future was never
so bright as now nor the promises so
sure to come. Matters may go slow
hence to spring, but the herbingers of
this great life giving period of the
year will not awake from their drowsi-
ness too soon to escape being startled
by the boile and din certain there to
be visible and heard everywhere. The
first year of the Twentieth century
will mean much to this great nation
and to the world.

That part of the Democratic press
which a few weeks since, as for sev-
eral years before, was roundly abus-
ing Mr. Cleveland's independence, is
now patting him on the back. Their
change of tactics, not of heart, has
been occasioned by a late speech Mr.
Cleveland made against the adminis-
tration's ideas as to the control of the
Philippines. Consistency on the part
of these bolter than thou papers
should have induced them to let Mr.
Cleveland's ideas on any question
pass without endorsing on the grounds
nothing good could come from his
mind.

It is very amusing to note how
it pleases our esteemed contempora-
ries, the News and the Register, to
dwell on The Sun's article relative to
the city's death rate and the feeble
attempts made by them to try to make
the people think we have slandered
our fair city "so awfully." Keep it
up, gentlemen. We are satisfied with
the results. We hope it will benefit
the city to call attention to a few
facts. It was probably heroic treat-
ment, according to some people's
ideas, but it was fruitful. We allow
no man to cherish a greater pride for
Paducah than we do, and would not
give currency to aught slanderous con-
cerning our good city. We stated the
facts as given to us by the medical
profession and their veracity has not
been disproved. Doing this, and ac-
complishing our aim, we were satis-
fied. Our neighbors can play on the
strings at their pleasure—if the music
is to their fancy.

NO POLITICS IN THE SUN'S FIGHT FOR BETTER SAN- ITATION.

Our vacillating contemporary, the
News, after copying a serene pan-
graph from an isolated country week-
ly in regard to Paducah's insanitary
condition, keeps up its record for un-
reliability by false generalities. It
assures its country friend that The
Sun has misrepresented the mortality
rate and says it is a case of politics in
which The Sun is trying to cast re-
flection upon a city Democratic ad-
ministration.

It is well known that the agitation
was started by the medical fraternity,
the majority of whom are Democrats
and had no thought of casting any re-
flection on any one. The Sun joined
in the fight because it recognized that
when the doctors become alarmed as
regards the life and health of the citi-
zens it was time for all sensible peo-
ple to take alarm and lend them as-
sistance.
The Sun will continue to aid the
doctors, and the Commercial club who

have joined the crusade, until some
relief is obtained. If to attain this end
the truth must be told. The Sun will
tell it, say but effect that may arise,
temporarily, by reason of an effort to
save the lives and protect the health
of the citizens of Paducah must be
endured until the fact is corrected.
Paducah is naturally a very healthy
city, and there is no occasion for it to
be otherwise, except through neglect
and carelessness. This, from what
the best and most influential doctors
of the city say, does exist, and they are
the best authority obtainable. Care-
lessness is evident from the fact that
no meeting of the board of health was
held for eighteen months. Paducah
can be made one of the healthiest cit-
ies in this section of the country. It is
this end that The Sun has in view.
There is no politics in this matter,
as such as our flopping friends would
try and impose his Democracy upon
a suspicious public, if there was there
is no telling where the News would
be. The only motive that impels The
Sun to publish the facts may tempo-
rarily effect the interest of the city
is the more imperative obligation it
owes its neighbors and friends who are
now here and whose very existence is
jeopardized. It knows no politics when
dealing with such matters it would
not trifle with such matters; for the
sake of politics, but when it comes to
politics it has always maintained a
straightforward and manly course and
its enemies as well as its friends know
where to place it. The report of the
committee of the medical fraternity
that was published should be suffi-
cient to interest any man in the sub-
ject. The doctors are gushful in
their motives and their acts are in the
interest of the health and lives of their
friends, their neighbors as well as
their own families; these motives will
convince every sensible man to consider
that this question is a serious one and
one that cannot be smothered for the
mere temporary relief from publicity.
No real and irreparable damage has
been done, no serious damage has re-
sulted. The impending damage can
be avoided and publicity is the surest
and most certain way of stopping the
impending calamities. After an ep-
idemic has broken out and many of our
best loved ones have suffered death
from this neglect, all the resolutions
and committees can do no good. It

is the present agitation that is going
to save them, and it is the present
publication of existing conditions that
will be the greatest benefit to Padu-
cah that has ever occurred, notwith-
standing a country weekly of three
hundred circulation has proclaimed to
the world the fact that Paducah is an
insanitary and the flopping, antiquated
sheet is about to go into spasms to
prove its ever changeable love for
Democracy.

HERBINE should be used to enrich
and purify the blood; it cures all
forms of blood disorders, is especially
useful in fevers, skin eruptions, boils,
pimples, blackheads, scrofula, salt
rheum and every form of blood im-
purity; it is a safe and effective cure.

THE KIND OF WIFE I Should Choose For My Son.....

(By Courtesy of "The Christian Herald," New York)
THE WIFE DESCRIBED IN
THE BOOK OF PROVERBS.
(By Rev. Joseph Parker, D. D.)
The subject of this article is espe-
cially of being stated from a totally
different point of view, that is, for ex-
ample, What daughter-in-law would
I choose for myself? So limited is
the mind of man, and so selfish is he
even in his most exalted moments,
that he cannot but treat every subject
with special regard of his own emo-
tions, preferences and interests. I
have not only to choose a wife for my
son, I have to choose another mem-
ber of my own family, a consideration
which cannot but effect my reasoning
upon so delicate a topic. If my son
were to be married tomorrow, and
depart for the aftermost parts of the
earth on the day following, I might
not feel the pressure of the matter so
sensitively; but when I reflect that
my son and his wife are going to live
within five minutes' walk of my
own house, and they will probably
come at least three a week for their
supper at my table, it is impossible for
me to bring my susceptibilities within
the control of a stern or even Spartan
discipline.
First of all, my son's wife must
have a rosy and well furnished
head. For I like sense; downright
solid human sense. I like, too, some-
thing that is softened and varied by well-
controlled and well-directed humor;
not only the sense that can see a joke
after it has been elaborately explained,
but the broader, rarer sense, which
can see the humorous aspect even of
some serious things. It is pitiful
to see how very seriously some peo-
ple take their daily life.
Life is serious enough in all con-
science, therefore, do not let us fill it
with a deeper sadness so tragical as
to be utterly without relief, and with-
out openings into wider and healthier
spaces. My daughter-in-law, there-
fore, must have sense relieved and
softened by gracious humor; the hu-
mor that may make her keenly alive
to the defects of other families, but
obligingly blind to the infirmities of

above the renown of her circle, every
one says concerning her, "Many
daughters have done virtuously, but
thou without doubt excellest them
all."
I have thus made a clean breast of
the purposes which animate me in the
choice of a daughter-in-law. My read-
ers now know exactly my policy in
reference to my son's welfare. He
will never be half a man until he is
mated with this sweet and holy wo-
man of the Book of Proverbs. I
speak with the greatest emphasis; I
declare with the whole passion of my
heart, that this is precisely the
kind of wife which I should at once
choose for my son—if I had one.

A QUEEN OF SILENCE AND QUEEN OF SPEECH.

(By Bishop John H. Vincent.)
If I had a son who needed a wife,
and my words had power to place
in his hand in holy covenant the hand
of a woman answering to my ideal, these
are the words I should write:

A woman of intelligence, that is,
at his wisest and best, might respect
her; gaining in culture and power
with the passing years, that he might
not outgrow her; independent, that
she might maintain her rights, and
yet controlled, that she might not be
overruled; vivacious, that she
might continue to interest and in-
spire him; gracious and agreeable in
social manners, that she might help
make his home attractive to people
of taste and refinement; leaving a
specialty in art or literature, that she
might continually augment her re-
sources; expert as a cook and enterer,
that she might be able to direct her
kitchen; genuinely sympathetic, that
towards "servant girls" she might
stand in the attitude of a friend, ac-
counting them as home helpers and
not slaves, and therefore with a deli-
cate sense of fitness objecting to the
term "servants," unless she applies
the same term to her minister, mer-
chant, doctor and banker; honoring
true and pure womanhood in every
sphere of life where it seeks self re-
spect and cultivates great social aspi-
ration.

A woman interested in all questions
of social reform, that she might con-
tribute directly and indirectly, by ex-
ample and effort, to the development
of society.

A woman fond of children, that she
might be glad and proud to be a
mother, with industry, tact and in-
geniousity, that she might both enter-
tain and instruct her children. A
woman fond of reading alone, that she
might enrich the early years, and thus
all the year, of her children's lives
with a taste for and a knowledge of
the best literature; keen to detect
native defects in her children, that she
might be wise in devising and equally
wise in a permanent silence concern-
ing them.

A woman steady in the observance
of religious duties, that her teaching
might never become perfunctory, and
that all her well-chosen and carefully
uttered words about religion might al-
ways have in them the force and fer-
vor of profound conviction and of per-
sonal experience.

A business woman, that she might
sympathize with her husband's re-
sponsibilities, and appreciate his obli-
gations; economical and prudent; train-
ing her children to know the value of
a penny in the "service" that carries it,
the self denial that saves it, and the
wisdom that divides it in useful ex-
penditure, and philanthropic testow-
ment, training alike to discrimination,
prudence and generosity.

A woman devoted to the church,
revereing and making delightful, if
in a different way from other days,
the Holy Sabbath, recognizing the
preeminence of the Holy Bible over
all other books, and boiling up into
our civilization as far as her home
can do it, the noble Christian ele-
ments which are the glory of the age
and the government in which we live.

A woman free from affectations of
every sort, scornful to appear what
she is not, accounting dishonesty as
rudeness, and yet preferring belon-
ness to pretence.

A woman who is a Queen of Si-
lence and a Queen of Speech; holding
the golden scepter which lifted en-
sures the first, and dropping gives the
blessing of the second; loving her
home better than all other places on
earth, making it a forerunner of the
home earthly, and sharing with other
earthly homes the qualities of grace
and peace which makes her own so
delightful.

A woman beautiful with the person-
al charms which reality in character
bestows; charms which make irregular
features and a plain face attractive,
and which thought, love and unself-
ish devotion make radiant. Such is
my ideal of a wife I should seek for
my son, if my son were not already
thoroughly satisfied, as is his father.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY

As mercury will surely destroy the
sense of smell and completely debase
the whole system when entering it
through the mucous surfaces, such
articles should never be used except
on prescriptions from reputable phy-
sicians, as the damage they will do is
too fond to the good you can possibly
derive from them. Hall's Catarrh
Cure, manufactured by F. J. Cheney
& Co., Toledo, O., contains no mer-
cury, and is taken internally, acting
directly upon the blood and mucous
surfaces of the system. In buying

INSTRUCTIONS TO CONGER.

FOR GUIDANCE IN SETTLEMENT
OF CHINESE QUESTION.

Washington Jan. 18.—Consideration
is being given by the president and
Secretary Hay to the instructions to be
cabled to Minister Conger for his
guidance in the negotiations for a per-
manent settlement of the Chinese
question. As practically determined
upon, the programme to be followed
in the negotiations contemplate—first,
the immediate carrying out by the
Chinese government of the demands
which require no further discussion;
the determination of the extent of and
method of punishment of the respec-
table authors of the Chinese outrages;
the amount and method of payment
of the indemnity, and, finally, the re-
vision of treaties with China. The
discussion relative to punishment will
relate to the ability of China to im-
pose harsher punishments than she will
probably propose, and the designation
of a committee of allies to be present
when the punishment is inflicted.

This government is still in favor of
the foreign ministers agreeing upon
the amount of indemnity China will
pay, after which the foreign ministers
will distribute it among the allies,
failing which, the distribution is to
be made by The Hague. It has not
yet been determined whether the
treaties shall be revised by each nation
separately or by the nations jointly,
as this matter will have to be set-
tled by direct negotiation between the
powers.

VENEZUELA WAR CLOUD
IS GROWING AND CASTRO MAY
BRING A SQUADRON DOWN
UPON HIM.
Washington, Jan. 18.—Venezuela,
has been given to understand that the
United States will exert its whole
power, if necessary, to provide pro-
tection to American interests within
its territory.
Representation to this effect has
been made by Minister Loomis in ac-
cordance with instructions sent to
him as a result of the disquieting news
received indicating that an attempt
would be made to dispossess the New
York and Herandesa company of its
asphalt property without due process
of law.
It is believed in naval circles that
the gun-boat Scorpion has left Laguay-
ra, and is on her way to Guannaco,
a port on the San Juan branch of the
trunk river, about fifteen miles from
the asphalt lakes which are in dispute.
Lieut. Commander Nathan Sargent,
commanding, will if necessary land
marines, but he will avoid bloodshed
if possible.
If you call for reinforcements, the
Hartford will be directed to return in
Venezuelan waters, the Lancaster is
available and the battleship Keary-
sarge and Massachusetts are at Pona-
colon.
Venezuela is not menaced alone by
the United States, however. Great
Britain is interested in the seizure of
the two steamers of the Orinoco ship-
ping and trading company, which
have British registers. In addition
the country is in a state of ferment,
aroused by the activity of fol-
lowers of former President Andrade,
whom Castro, the present president,
overthrew.
